DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Knickerbocker.

The Knickerbocker reference discloses a dispensing applicator comprising a handle/reservoir 24, a head/applicator portion 41, and a piston pump 26, wherein the handle pivots about a fixed axis spaced apart from the pump to deliver fluid to the applicator portion when the applicator portion is positioned at a surface (a surface is capable of actuating trigger 34).

Allowable Subject Matter

Claims 2, 4, and 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Art Unit: 3751

Applicant's arguments with respect to claims 1, 3, and 7 have been considered but are moot in view of the new ground(s) of rejection.
